**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to interaction between two network elements and a payment/charging for a provided service, classified in class 705, subclass 40 or 370/352.
- II. Claims 23-40, drawn to billing users for communication service provided, classified in class 455, subclass 406.
- III. Claims 41-51, drawn to billing a subscriber and revenue sharing between service providers, classified in class 455, subclass 405.
- IV. Claims 52-76, drawn to ISP (internet telephony) or internet wireless computer usage, billing and revenue sharing, classified in class 370, subclass 352.

The inventions are distinct, each from the other because of the following reasons:

Inventions s I, II, III and IV are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because of the reasons above. The subcombination has separate utility such as revenue sharing

among service providers, billing a user terminal for service provided and ISP (internet telephony).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
